## Research Communications

Volume 17, 1990

### LIST OF CONTENTS AND AUTHOR INDEX

#### List of Contents to Volume 17, 1990

1990		Vol. 17, No. 1
	CONTENTS	
	<i>Scientific and Applied Communications</i>	
GUIMIN SHI and GERARD BEZINE	1	Buckling Analysis of Orthotropic Plates by Boundary Element Method
C. H. von KERCZEK	9	Computer Extended Series Analysis of the Boundary Layer on a Flat Plate with Nonzero Surface Velocity
DAVIDE BIGONI and TOMASZ HUECKEL	15	On Uniqueness and Strain Localization in Plane Strain and Plane Stress Elastoplasticity
J.A. HOWARTH	25	The Stefan Problem for a Slightly Wavy Wall
YANG GAO	33	Bound Theorem on Finite Dynamic Deformations of Plasticity
V. BIRMAN	41	Buckling and Bending of Beams Subject to a Nonuniform Thermal Field
M. OKAMOTO and T. SEKIYA	47	Some Practical Solutions for Elastic Torsion of Bars by Charge Simulation Method
H.P. YAGODA	55	A Temperatureless, Exact Analytical Method for Computing Shorted Heat Power through Rods and Composite Slabs
	<i>Announcements</i>	
	24	EUROMECH COLLOQUIUM 269, Saint-Etienne, France, December 3-6, 1990
	32	Third International Conference on Constitutive Laws, Tucson, Arizona, January 7-12, 1991
	40	Second Pan American Congress of Applied Mechanics, Valparaiso, Chile, Jan. 2-5, 1991
	46	Conferences on Residual Stresses, ICRS-3, and on Mechanical Behaviour of Materials, ICM-6, Japan, July 1991
	54	18th Int. Congress of Theoretical and Applied Mechanics, Haifa, Aug. 22-28, 1992

1990

Vol. 17, No. 2

## CONTENTS

*Scientific and Applied Communications*

- |   |     |  |
|---|-----|--|
| D. YADAV                                  | 65  | Vehicle Response Statistics to Nonstationary Track Excitation - A Direct Formulation                       |
| A.G. MAVRAGANIS                           | 75  | The Integral Invariants of $n$ Gyrostats   |
| R.C. BATRA and C.H. KIM                   | 81  | An Adaptive Mesh Refinement Technique for the Analysis of Adiabatic Shear Banding                          |
| J.R. BERGER and J.W. DALLY                | 93  | A Spatially Overdetermined Analysis for Propagation Toughness Using Strain Gages                           |
| H.P. YAGODA                               | 101 | Approximate Solutions for the Efficient Thermal Design of Rods   |
| K.H. LEE, N.R. SENTHILNATHAN and S.P. LIM | 111 | Axisymmetric Bending of Thick Circular Plates  |
| J.J. TELEGA and W.R. BIELSKI              | 117 | Variational Formulation of the Transient Motion of a Rolling Cylinder Undergoing Plane Finite Deformations |

*Announcements*

- |     |   |
|-----|---|
| 92  | International Symposium for Boundary Element Methods, IABEM-90; Rome, October, 1990                   |
| 100 | International Symposium on Boundary Element Methods - Research Issues; Patras, Greece, April, 1991    |
| 110 | SMiRT 11, International Conference on Structural Mechanics in Reactor Technology; Tokyo, August, 1991 |
-

1990

Vol. 17, No. 3

## CONTENTS

*Scientific and Applied Communications*

- |  |     |   |
|--|-----|---|
| A.G. MAVRAGANIS                                      | 129 | On the Existence of Symmetric Periodic Motions of a Rigid Body about a Fixed Point                              |
| G. FRANTZISKONIS and C.S. DESAI                      | 135 | Degradation Instabilities in Brittle Material Structures  |
| BASANT KUMAR JHA and RAVINDRA PRASAD                 | 143 | Free-Convection and Mass Transfer Effects on the Flow Past an Accelerated Vertical Plate with Heat Sources      |
| A. CAROTTI and F.G. de MIRANDA                       | 149 | Passive Antiseismic Protections of Multistorey Building by Controlled Buckling of a Steel Base-Isolation System |
| A.M. SIDDIQUI  | 157 | Some More Inverse Solutions of a Non-Newtonian Fluid  |
| Z. FANG and I. PARASCHIVOIU                          | 165 | A Weighted Residual Formulation for Numerical Solutions of the Incompressible Navier-Stokes Equations           |
| D. PALANIAPPAN, R. USHA, S.D. NIGAM and T. AMARANATH | 173 | Sphere Theorem for Stokes' Flow   |
| J. LANIER and Z. ZITOUNI                             | 175 | Constitutive Equations for Perfectly Plastic Material: An Application in Soil Mechanics                         |
| A.P.S. SELVADURAI                                    | 181 | The Unilateral Contact between a Rigid Circular Punch on a Halfspace and a Mindlin Force                        |
| DAVIDE BIGONI and TOMASZ HUECKEL                     | 189 | Addendum to "On Uniqueness and Strain Localization in Plane Strain and Plane Stress Elastoplasticity"           |

*Announcements*

- |     |   |
|-----|---|
| 142 | APPEAL from the University of Bucharest   |
| 156 | 27th Annual Technical Meeting, Society of Engineering Science, Sante Fe, New Mexico, October, 1990. |
| 164 | Symposium on Constraint Effects in Fracture, Indianapolis, Indiana, April, 1991                     |
-

1990

Vol. 17, No. 4

## CONTENTS

*Scientific and Applied Communications*

- |  |     |  |
|--|-----|--|
| A.H. NAYFEH and<br>B. BALACHANDRAN                 | 191 | Motion Near a Hopf Bifurcation of a Three-Dimensional System                                       |
| M. BELHAQ  | 199 | Numerical Study for Parametric Excitation of Differential Equation Near a 4-Resonance              |
| DEBENDRA K. DAS                                    | 207 | An Improved Turbulent Boundary Layer Theory  |
| H.M. ZBIB  | 217 | On the Concept of Noncoaxiality and Large Material Rotations: A Double-Slip System                 |
| TERENZIANO RAPARELLI                               | 223 | Effects of Material Relaxation on the Mechanics of Strip Winding                                   |
| NICOLAS Ch. CHARALAMBAKIS<br>and ELIAS C. AIFANTIS | 231 | On the Problem of Shear Instability of a Finite Thermoviscoplastic Slab: A Gradient Approach       |
| A.M. WAAS  | 239 | Initial Postbuckling Behavior of Beams on Non-Linear Elastic Foundations                           |
| G. BOUCHER   | 249 | Quantitative Study of the Motion of a Rigid Body in an Ideal Fluid                                 |
| M.A. De ROSA                                       | 255 | Stability Analysis of Timoshenko Beams on Variable Winkler Soil                                    |
| I. BRILLA  | 263 | Postbuckling Analysis of Circular Viscoelastic Plates  |
| W. RUST and E. STEIN                               | 271 | Smoothing-Adapted Transfer in the Multi-Grid Solution of Reduced Integrated Finite Element Systems |

*Announcements*

- |     |   |
|-----|---|
| 262 | First Thermal Structures Conference,<br>University of Virginia, November 1990   |
| 270 | 32nd Israel Conference on Aviation and<br>Astronautics, Tel Aviv, February 1991 |
| 277 | CISM - 1989 Annual Report   |
-

1990

Vol. 17, No. 5

## CONTENTS

*Scientific and Applied Communications*

- |                                 |     |   |
|---------------------------------|-----|---|
| V. SLADEK and J. SLADEK         | 281 | On Nonsingular Boundary Integral Equations for Crack Problems   |
| A.C. GAVAZZI and A. NAPPI       | 293 | Estimation of Residual Plastic Strains from Boundary Displacement Measurements  |
| H. IMAI and S. TAKAHASHI        | 305 | On the Second Order Scalar Component of Pressure in Incompressible Materials  |
| WOJCIECH BLAJER                 | 311 | A Useful Matrix Form of Kane's Equations  |
| V.M. SOUNDALGEKAR and J.P. BHAT | 319 | Laminar Flow of a Radiating Gas in a Porous Medium in a Vertical Channel  |
| A. RIDHA                        | 327 | Laminar Mixed Convection in a Corner with Suction   |
| BASANT KUMAR JHA                | 337 | Free-Convection Effects on Hydromagnetic Flow Past an Impulsively Started Vertical Porous Plate through Porous Medium |
| ZDENEK P. BAZANT                | 343 | Smeared-Tip Superposition Method for Nonlinear and Time-Dependent Fracture  |
| H. STUMPF and J. BADUR          | 353 | On Missing Links of Rate-Independent Elasto-Plasticity at Finite Strains  |

*Announcements*

- |     |  |
|-----|--|
| 292 | 32nd Annual Conference on Aviation and Astronautics, Israel, February 1991 |
| 336 | 1st European Solid Mechanics Conference, Munich, September 1991            |
-

1990

Vol. 17, No. 6

## CONTENTS

*Scientific and Applied Communications*

- |  |     |   |
|--|-----|---|
| PING HU, DAJUN ZHOU and<br>JIAN SHE LIAN                 | 365 | A New Modified Algorithm for Elastic-<br>Plastic FEM: Quasi-Chord Modulus Method                |
| T. LEWINSKI  | 375 | On the Twelfth-Order Theory of Elastic Plates   |
| YI XU and ARUN SHUKLA                                    | 383 | Stress Wave Velocity in Granular Medium   |
| O. MAHREHOLTZ and<br>K. WILMANSKI                        | 393 | Note on Simple Shear of Plastic Monocrystals  |
| W. WANG and M.Z. WANG                                    | 403 | On Single-Valuedness of the Papkovitch-Neuber<br>General Solution in Two-Dimensional Elasticity |
| N.S. ABHYANKAR and<br>S. CHANDRASHEKARA                  | 409 | Concise Expressions for the Dispersion Relations<br>for Waves in an Infinite Isotropic Plate    |
| VIJAY K. GARG and<br>K.R. RAJAGOPAL                      | 415 | Stagnation Point Flow of a Non-Newtonian Fluid  |
| J.H. HWANG and F. MA                                     | 423 | On the Depletion of a Thin Liquid Film over a<br>Rough Rotating Disk                            |
| D. PALANIAPPAN, S.D. NIGAM,<br>T. AMARANATH, and R. USHA | 429 | A Theorem for a Shear-Free Sphere in Stokes'<br>Flow  |
| CHENG SHUMIN and ZHANG XING                              | 437 | Generalized Stiffness Derivative Method for<br>Mixed Mode Crack Problems                        |
